

### **Excellon Technologies Receives Inc. Magazine Honor**

Excellon Technologies, along with 4 other northeast Indiana companies, was chosen as one of Inc. Magazine's 5,000 fastest growing privately owned companies in the nation.

Fort Wayne, Indiana based Excellon Technologies, specializing in custom sensors, magnets, cable assemblies and wire harnesses for commercial, industrial, military and aerospace applications.

Excellon was ranked 2,386 on the list. The Inc. 5,000 is ranked according to percentage revenue growth from 2003 through 2006. To qualify, companies must:

- Be able to show four full calendar years of sales
- They had to be U.S.-based, privately held, and independent--not subsidiaries or divisions of other companies
- Revenue in 2003 must have been at least \$200,000, and revenue in 2006 must have been at least \$2 million

To develop the list, for almost a year Inc. Magazine unleashed more than 70 researchers, reporters, editors and interns on the project, and enlisted the help of dozens of business organizations and trade associations to boldly go where no news organization had gone before, to identify and profile the 5,000 fastest growing companies in America.
